

1/3 A4 Compliment Slip

99mm x 210mm
Print Guidelines

Bleed Area (3mm)
Area to be Trimmed

This area will be cut off when the document is sent to be trimmed.

To prevent any white borders appearing, please extend any images and colours to the edge of the bleed area.

Do not allow any text or important information to run off onto the bleed area.

Safe Area (3mm)

It is recommended that your artwork is at least 5mm from the edge of the page within a safe area. This will ensure that when trimmed, there is enough room to allow any mistakes to happen. Do not allow any text or important information to go into this safe area.
